FIG. 3

Fig. 5

A hand-drawn diagram of a diamond-shaped network. The diagram features a central vertical line and a horizontal line intersecting at a point. The network is composed of several nodes and connections:

- Nodes:** There are seven circular nodes, each containing a '+' sign. They are arranged in a diamond shape: one at the top, two in the middle, three at the bottom, and one on the right side.
- Connections:** Solid lines connect the nodes in a diamond pattern. A dashed line forms a circle around the central nodes. A dashed line also connects the top node to the bottom node.
- Labels:** Various numbers and symbols are scattered around the diagram:
 - 54, 64, 60, 77, 76, 75, 80, 82, 81, 78, 50, 83, 94.
 - ~ (tilde) symbols are used as prefixes for some numbers (e.g., ~60, ~80, ~82, ~83, ~94).
 - Arrows point from some numbers to specific nodes or lines.
